

TASK 1 : DESCRIPTION

This task involved creating a digital literacy awareness infographic using Canva. The infographic explains key concepts such as the meaning of digital literacy, useful digital tools for students, safe internet practices, and the importance of maintaining a professional online presence. I focused on making the design visually appealing by using icons, colors, and structured sections instead of long paragraphs. This task helped me improve my ability to present information in a clear and engaging way while also understanding the importance of visual communication in the digital world.
